Profile

I have over 12 years of providing professional IT services to small businesses in the Vancouver and Sunshine Coast area.

I have extensive experience supporting a diverse range of industries and technical environments including: medical, university, emergency services, legal, real estate, tourism, and construction.

Experience

Owner, Mainstay Computing; Vancouver and Sechelt, BC — 2002 - present

Mainstay Computing is an independent computing business located in Sechelt that provides on-site service and digital solutions to small businesses and residential customers.

As the principle operator, I have developed my skills in providing rapid and efficient solutions. I am always cognizant of delivering meaningful results that are both time and cost effective.

Over the past 10 years I have established a strong reputation for providing professional and confidential service to over 1300 customers and was awarded the *Best Home Based Business Award in 2009* from the Coast's Business Awards of Distinction.

Instructor, Capilano University; Sechelt, BC — 2006 - present

I have developed and presented custom courses: Computer Essentials, Office Essentials, Basic Computer Maintenance, and Digital Photography and Your Computer.

I am comfortable presenting to large groups (300+) but prefer teaching and training in manageable groups of 15.

Education

University of British Columbia (UBC Engineering), Vancouver, BC — MAsc, 2003

University of British Columbia (UBC Engineering), Vancouver, BC — BAsc, 2000
